COUNSELLING

Counselling is a process that enables to sort out issues and reach decisions affecting their life. Often counselling is sought out at a time of change or crisis, it need not be so however as counselling can also help us at any time of our life.

Counselling involves talking with a person in a way that helps a person solve a problem or helps to create conditions that will cause a person to solve a problem or helps to create conditions that will cause a person to understand and /or improve his /her behaviour, character, values or life circumstances. At the end of the counselling process, the client himself /herself has an insight to the problem and he/she becomes empowered to take his or her own decision.

Conflicts, academic problems, career, personal and socially related problems than in the past. counselling programmes involves individual sessions with students, where truth serves as a means to reach the goals of counseling. Follow up sessions are carried out as on a regular basis and parents are involved in the process if the need demands.

The counsellor was also actively involved in meeting the students and parents who have shortage of attendance. They were counselled and advised to be regular to college and to maintain 75% attendance in all subjects. In future, the counsellor hopes to instill skills that will enable our students to be efficient and successful. Counselling is defined as the service of helping people to adjust or deal with personal problems, by enabling them to discover for themselves the solution to the problems when receiving attention from a counsellor.

The Counsellor's View point:

As the counsellor, I had to deal with not counselling but also address issues and also to manage the help desk to help our students and parents. Throughout the year, I met students, staff and parents addressing many issues like peer pressure, parental pressure, academic pressure, personal

problems, relationship problems, depression, career guidance, shortage of attendance ,misconduct, enquiries, ventilation ,interpersonal problems, relationship problems and other issues. I have maintained confidentiality and dealt with each individual on a non judgemental basis .Certain sensitive matters had to be taken up with the Principal and handled delicately. I have maintained confidential reports after every sessions and also maintained a record of work on a daily basis. I have also got feedback from students, parents and staff on the sessions that were conducted. Certain case follow up sessions were taken up by me. Students who had approached me seeking help have also brought their classmates and friends for various issues. This shows a definite positive impact of my counselling services. The respondents were asked for general comments or remarks of the service provided.

My primary task is to support the academic session of the college by providing a range of interventions which enhance a student's ability to be consistently engaged with achieving their academic potential

Other activities:

The counsellor had given a talk on the topic “Adolescent counseling” to the II year students of the Home Science department on 12th October 2018. The opening remark was made by the counsellor on 4th August 2017 for the panel discussion on “Talking about mental health is a sign of strength and not weakness” which was conducted by the department of Psychology. The counsellor handled the students session and addressed the parents of I and II PUC students on 17th January 2018 for the workshop on ‘Top of Form-Bottom of Form.’

COMMITTEE REPORTS

ASSEMBLY

The beautiful thing about learning is that no one can take it away from you. - B.B.King

The College strongly believes in the importance of learning and as an institution gives its students innumerable opportunities for interactional learning. Assemblies are an integral part of learning and communication at Cottons. We believe in the importance of maintaining a personal touch and improving the interpersonal skills of students. We have assemblies every alternate Thursdays between 12:15 and 1:00 pm. Each class is responsible for conducting the assembly and all the students actively take part in presenting a program that has a structured format and is based on a meaningful theme.

The theme chosen by our Principal, was “The importance and relevance of values and morals in life”.

The convenor was Mrs. Monisha Muliyl and the staff in charge were Ms. Vidyashree R, Ms. Anitha Clarin, Dr. Sharmila, Mrs. Powlin Sahayarani and Mrs. Rachel Joshua.

Every assembly begins with an opening prayer and Bible reading followed by chorus singing. After this, the classes are given the freedom to choose the mode of their cultural presentation depicting the theme. Usually the students present a skit and choreography based on the theme. They also present tableaux and mimes on certain occasions. Apart from the class assemblies, we also have special assemblies wherein guest speakers are invited to address the students on certain crucial topics. Classes also conduct special assemblies based on relevant themes. This year, we had two such special assemblies. One was held on 5th October 2018 wherein few representatives from the Little Sisters of the Poor visited our college and the III B. Sc. class presented an assembly on the theme “Celebrating Senior Citizens”. The students contributed non- perishable food items and toiletries that were sent to the inmates of the institution as they are an institution that opens their home and heart to the aged poor who are 65 years and above, without discrimination of caste or creed and provide for all their needs without having a fixed income.

Another special assembly was conducted by the I year M. Sc. and III year BA students on 11th October 2018 based on the theme- “Mental health awareness and Psychological First Aid”. This theme was chosen to spread awareness related to mental health among all students as 10th October 2018 was observed as “Mental Health Day” world over. The students presented a skit, choreography and a flash mob that depicted the theme.

The Principal addresses the students during every assembly giving them feedback about their performances, making important announcements and inspiring them with motivational stories. Many other special features take place during the assemblies like releasing departmental newsletters, prize distributions to acknowledge the accomplishments of our students in various intercollegiate events. Awards and recognitions received by our staff and students are also announced. It also serves as a platform for students to showcase their special talents and for important departmental and college announcements to be made. Important announcements with regard to our inter-collegiate fest “ DISHA” and other events like sports day are made during the general assemblies.

The year was filled with exemplary performances by all the classes with enthusiastic participation and meaningful presentations. The themes chosen by the classes were as follows:

IN CONCLUSION:

Endings are inevitable, there's always the last chapter in a book and following it is the sequel.
My dear students you are stepping into a sequel and this world is yours.

"The sky is high and the walk is wide
You just don't know what you've got yet
It's in the palm of your hands
It's right in front of where you stand

if you believe, everything you dream, will come true,

This world is yours"

Embrace the person that you are and let your passion for life govern you to be a good citizen and a good human being, viewing the world with sensitivity and safe guarding the human rights of all created beings. Go out as ambassadors of goodwill and peace .

For the Lord God is a sun and shield; the Lord bestows favour and honour; no good thing does he withhold from those whose walk is blameless. **Psalm 84:11**
